FS-5 / FS-CV / MR-HD 100 MODELS**

FireStore Portable DTE® Recorder

Defining a new class of DTE recording, the FS-5 Portable DTE Recorder weighs only 12 ounces, brings Direct To Edit® recording technology to your HDV or DV handheld camcorder, and enables you to add custom metadata while you're recording. With the FS-5, you can personalize and optimize workflow—during shooting or playback. With your wireless handheld device or laptop, you can access one or more FS-5 units through a browser (new in 2.0), define metadata, and assign it to video while you're recording or during playback, eliminating the need to tag footage when the shoot is over. With the FS-5, you can view thumbnails and video clips on its brilliant color display. Thumbnails can also be viewed on a web page when the FS-5 is connected to a network. MPEG-4 proxy files can be generated and transferred to a host computer or a video-sharing web site, as well as distributed to portable media devices, making collaboration easy.

Technical Specifications

MODEL	VZ-ASYF-1323-01LF FS-5 Standard Battery (3-hour) Removable Extra Battery with 180 Min Capacity.
